SCOUT 377 LXF POWERED BY TRIPLE MERCURY VERADO 400 HP V10 OUTBOARDS

NEW ORDERS FROM \$1,361,117

CALL US FOR A FULL LIST OF OPTIONS, AND ENGINE UPGRADES TO COMPLETE YOUR DREAM BOAT.

The SCOUT 377 LXF, powered by triple Mercury Verado 400 HP V10 outboards, is an exceptional model in the Scout Boats range, renowned for its blend of performance, luxury, and design. It features advanced construction techniques and numerous high-end amenities.

Construction and Design: The boat is meticulously crafted using Carbon Epoxy Construction with Carbon Fiber/E-Glass as the main materials. This results in a boat that is both strong and lightweight. The dual-stepped hull design enhances performance and stability.

Innovative Power System: A notable feature of the SCOUT 377 LXF is its lithium-ion battery system with a battery management system, eliminating the need for a traditional generator. This system can power air conditioning and other onboard systems throughout the day without requiring shore power.

Luxury Amenities: The SCOUT 377 LXF is equipped with luxury features including a spacious cabin with a marine head, porcelain vessel sink, Corian vanity, and a mirror. The cabin also offers a double berth, a 32" TV, and air conditioning both in the cabin and at the helm.

Fishing and Leisure Features: The boat includes a fully walkable swim platform, an Armstrong swim platform ladder, and a portside swing-in boarding door with a ladder. For fishing enthusiasts, there are aerated transom baitwells, numerous rod holders, and large fish boxes.

Advanced Technology: The boat is equipped with modern technology like key fob remote-controlled lights, a bow camera, and optional equipment such as a Seakeeper 3 gyro stabilizer and a summer kitchen.

Helm and Hardtop: The helm area includes a Fusion Bluetooth stereo system with JL Audio speakers, Garmin displays, heated seats, and a powder-coated T-top hardtop with a glass enclosure.
